9643461952 • sawantkumar199@gmail.com • sawant-portfolio.vercel.app • github.com/Sawantkun

## SUMMARY

Results-driven Full Stack Web developer adept at crafting immersive and user-centric web experiences. Proficient in a wide range of modern web technologies and frameworks like React.js, Next.js, and Tailwind, with a passion for translating design concepts into responsive websites that drive business results.

## SKILLS

**Frontend Web Development:** ReactJs, NextJs, Tailwind, MUI, ChakraUI

**Backend Web Development:** MySQL, NodeJs, Python

**Tools:** Github, Bitbucket, Firebase, MongoDB

**Certifications:** FreeCodeCamp Frontend Development

**Soft Skills:** Communication, Problem-Solving, Time Management, Teamwork, Conflict Resolution, Leadership

## PROFESSIONAL EXPERIENCE

### NusterAi, Remote: Associate Consultant

Oct, 2024 – Present

- Creating innovative mobile and web applications using React.js, focusing on responsive design and optimal user experience.
- Collaborating with cross-functional teams to develop AI-powered solutions and integrate cutting-edge technologies into client projects.
- Consulting with clients to understand their business requirements and translating them into scalable technical solutions.

### Futuristic Bots, Haridwar: Project Engineer

Mar, 2024 – Sep, 2024

- Worked on developing automation solutions for forklifts, focusing on integrating autonomous capabilities for improved efficiency.
- Conducted tests and assessments on automated forklift performance to ensure safe and efficient operations in diverse environments.
- Collaborated with a team to design and implement solutions that optimize forklift navigation and task execution.

### Invofy, Remote: Web Development Experience

Sep, 2023 – Feb, 2024

- Implemented dynamic web applications using Next.js, leveraging React components for frontend development.
- Designed and developed responsive user interfaces using Bootstrap framework, ensuring cross-device compatibility and optimal user experience.
- Collaborated with a multidisciplinary team to deliver features, conduct code reviews, and optimize performance for Invofy's web-based solutions.

### Frienducation, Remote: Web Development Experience

Nov, 2022 – Mar, 2023

- Developed responsive user interfaces and interactive components using ReactJS for educational platforms.
- Collaborated closely with team members to implement new features and optimize existing codebase for improved performance.
- Documented technical specifications and project progress to facilitate seamless knowledge sharing among team members.

### Omnipresent RobotTech, Greater Noida: Web Development and Python Experience

Jul, 2022 – Aug, 2022

- Developed responsive user interfaces for enhancing the UI of Drone Consoles and improving the overall user experience.
- Collaborated with a team to design and develop a web console for drone tracking, which included live streaming of locations and storing telemetry data.
- Utilized Python with Flask and WebSockets for backend development to handle data processing and communication between the drone console and server.
- Gained hands-on experience with APIs and integrated Python-based functionalities to enhance the drone console's capabilities.

## ACADEMIC PROJECTS

---

### Haigge

Summer 2025

Currently working on this AI based virtual try on ecommerce platform

- Source Code Link: <https://github.com/Sawantkun/Haigge>
- Live Preview Link: <https://haigge.vercel.app/>

### Digital DAO

2024

Business website providing SaaS solutions and custom website development services for enterprises

- Live Website Link: <https://digitaldao.in/>
- Developed a comprehensive business website showcasing SaaS solutions and custom web development services.
- Implemented modern web technologies to create an engaging user experience and professional business presence.

### Alumni Portal

Fall 2023

Connecting Generation Building Futures -Your Alumni Portal

- Source Code Link: <https://github.com/Sawantkun/Alumni Portal>
- Live Preview Link: <https://alumni-portal-sable.vercel.app/>

### NusterAi

Spring 2024

Transform Your Business with AI Agents.

- Source Code Link: <https://github.com/Sawantkun/nusteraibwebsite>
- Live Preview Link: <https://nusteraibwebsite.vercel.app/>

### Python Project: Drone Console

Jul, 2022

Developed a UI for a drone console/controller during an experience at Omnipresent RobotTech

- Description: Created a user interface for a drone console, implemented real-time data streaming and telemetry storage using Python, Flask, and WebSockets.

### Python Project: Real-time Chat Application

Spring 2023

Developed a real-time chat application using Python's Flask and Socket.IO for seamless communication between clients and servers.

- Description: Built a real-time chat application enabling users to communicate instantly, leveraging Flask and Socket.IO for backend functionality and WebSocket support.

## ACTIVITIES

---

### iNeuron

Aug 2022

As a team of four, built a Meeting Scheduling Web App (Planit.io) and placed 2nd in the iNeuron Hackathon

- Built a Meeting Scheduling Web App, Planit.io, streamlining scheduling for clients with a user-friendly interface.
- Live Preview Link: <https://planitio.vercel.app>

### Google Development Students Club, GBU

Mar 2023

As Web Development Lead, spearheaded initiatives, mentored developers, and organized events to foster technical proficiency and innovation

- Mentored a dynamic team in mastering modern web technologies including React.js and Node.js.
- Orchestrated hackathons and workshops focused on React.js, Redux, and server-side rendering.
- Cultivated partnerships with industry professionals to provide real-world experience and enhance career readiness.

## EDUCATION

---

### Btech, Computer Science Engineering

Graduating May 2025

Gautam Buddha University, Greater Noida

8.5 GPA

School of Information and Technology

Relevant coursework: Software Languages and Programmable Logic
